requester for emails prior to March

We agreed to prepare a DVD of EPA-R8-2018-003543 to be picked up by Pamela Lee. Ms. Lee will open the documents from the DVD for review. Ms. Lee picked it up today, December 13th. I have sent her copies of the documents she indicated were not readable.

A new FOIA will be submitted by requester for emails prior to March 2013.

Information requested in this current FOIA Request are modified to state:
Communications changed to read:

1. Communications, inspections, enforcement, or other regulatory activity by the EPA and its affiliates, pertaining to the Site. This request includes, but is not necessarily limited to, inspection reports, field inspection notes, other reports, permits, notices of violation, and enforcement-related orders March 2013 to December 12, 2018;
 2. All communications with, and all documents sent to or received from, CFAC or Glencore relating to the Site March 2013 to December 12, 2018;
 3. All communications with, and all documents sent to or received from, the Montana Department of Environmental Quality relating to the Site March 2013 to December 12, 2018;
- No change to 104e request
4. All documents produced by CFAC to the EPA in response to the EPA's 2014 request for information under CERCLA Section 104(e), 42 U.S.C. § 9604(e);
- Change in dates for site file index
5. All documents listed on the EPA Site File Index for the Site March 2013 to December 12, 2018.

Proposed releases:

Propose release date for Final production of amended request to be around Friday, January 25, 2019. (Depends on the amount of time the search for emails will take.)

Propose interim release to include index.

From RRC:

This request is vast, the records center currently has 2,095 records in SEMS for the Anaconda Aluminum site-MTD057561763, the majority appear to be scanned. The Records Center agrees with narrowing the scope. And suggests, compiling an index based off of keywords provided by a SME, to determine responsive records for review and upload. Please let me know if you concur, and have a SME provide keywords.
